Enthusiastic and self-motivated web designer, Energetic and Creative Web Developer! With a passion for innovative design and cutting-edge web development, Experienced in both graphics design and web development, my biggest achievement lies in seamlessly merging creativity with functionality. With a keen eye for detail, strong teamwork skills, and a knack for problem-solving,

Experience

Web Development intern , Bharat Intern

Jun, 2023- Aug, 2023

- During my virtual internship in web development, I had the opportunity to work on three exciting projects that focused on frontend design and development. These projects allowed me to hone my skills in HTML, CSS, and JavaScript while working in a collaborative and remote environment.

Student Representative ,TP Cell MIMIT Malout

April 2023- present

- During my tenure as a student representative in the Training and Placement Cell (TP Cell) at my college, I have had the privilege of working across diverse domains, honing skills that go beyond the realms of academics.
- Graphics designing One of my primary responsibilities in the TP Cell , was to create visually engaging and informative materials for various events and workshops. I delved into the world of Graphics designing, where I learned to translate ideas into compelling visuals.

Education
